

■ Billet aluminum bar end (plain, drilled) Universal (for 18 or 13mm diameter handle)

This is one point-dress-up part, with the bar-end finished in a stylish manner, and superiority in designing nature.

Our bar end is made of beautifully diamond flake with plated aluminum and anodized.

The bar end is available in 2 shapes : "Plain Type" and the "drilled Type", goes through a recess processing for a more stylish design. Also, the anodized coating comes in 4 colors : silver, black, blue, and red.

The installation makes the wider selection of handle bar, by adopting rubber made stopper, with 2 different types of diameter. You can apply them to various sheerings with the superior durability. leazer marked Takegawa's logo.

■ All kinds of our handle bar can be used.
