

COLORTUNE

Universal (for 10mm Spark plug)

You can see the color of Combustion Chamber to plug hole by attaching COLORTUNE.

Able to determine whether rich or weak by the color.

After starting the engine and sudden throttle opening in Air-fuel ratio meter using O2 sensor is difficult to determine immediately.

Can be seen in color in this state COLORTUNE.

※10mm spark plug cylinder head only. (TAKEGAWA 8mm plug cylinder head : DOHC 4V, DESMO 4V, Super head 4V+R)

※COLORTUNE is a tool for the setting. Can not be commonly used as spark plug.

※Engine position of spark plug to have recessed can not used.

※Please use the Running and Ritarder over the load should not be done.
