

# ■S-Stage eco /Hyper S-Stage eco Bore Up Kit 170cc

## ■FI CON2(injection controller)

### For PCX125(JF28-1100001~)

#### S-Stage eco Bore Up Kit 170cc

Stock cylinder head use,you can be the 170cc just assembling the kit parts.

You can become a full torque, to feel the powerful acceleration. Kit contents,all-aluminum ceramic plated cylinder, Sport camshaft, piston kit, gasket has become the set.

Compression ratio of regular gasoline correspondence of 11.2:1(Stock is 11.0:1).

Lineup,kit configuration of the cam shaft "attached", "No".Camshaft "None"has been put on the NEC Electronics sports camshaft,It is available if you want to step up to the S-Stage eco 170cc.

※When mounting the S-Stage eco bore up kit, We made FI CON2(injection controller) you will need.

If purchased at the same time of FI CON2 and S-Stage eco, we recommend the Hyper S-Stage eco 170cc bore up kit. (High speed pulley, clutch center spring comes)

#### FI CON 2(injection controller)

Without the need for data entry by computer,the configuration changes easily by switching the rotary switch. Setting to match our custom made parts,can be set to match the engine specification.

Attachable special harness attached, wiring processing minimal.

There is no decompression feature in Sports camshaft,you can assembling the parts of the decompression cam shaft genuine.

When using the idling stop function,please use it in the decompression assembled parts.

FI CON 2 is our engine parts, car muffler only. Third-party engine parts, muffler disabled.Please note that.

Combinations of non-setting program that is built (Engine parts, muffler, etc.), setting is not out, it becomes the cause of engine failure in some cases.

Upon installation of the FI CON 2,Please same combination with a variety of built-in configuration program always.

※There is not the function of the rev limiter cut.

※HID kit of goods outside because the high voltage noise adversely affecting the digital circuit is over,do not be installed simultaneously.Doing so may cause malfunction or failure.

※Ignition device external goods,Do not wearing at the same time that it becomes the cause of product failure.

Hyper S-Stage eco α Bore Up Kit 170cc

FI CON 2

Name	S-Stage eco Bore Up Kit 170cc(Camshaft none)
Applicable model	PCX125(JF28-1100001~)
Item number	01-05-0150
Price	¥28,000

Name	S-Stage eco Bore Up Kit 170cc(Camshaft included)
Applicable model	PCX125(JF28-1100001~)
Item number	01-05-0151
Price	¥39,800

Name	S-Stage eco α Bore Up Kit 170cc(FI CON2 included)
Applicable model	PCX125(JF28-1100001~)
Item number	01-05-0152
Price	¥49,000

Name	Hyper S-Stage eco Bore Up Kit 170cc (FI CON 2/drive system recommended parts are included)
Applicable model	PCX125(JF28-1100001~)
Item number	01-05-0153
Price	¥59,800

Name	FI CON 2(injection controller)
Applicable model	PCX125(JF28-1100001~)
Item number	05-04-0011
Price	¥14,000

Test vehicle: PCX
