

■ **NEW PRICE** Special clutch kit CRF50/70F, XR50/70R

Came up in new affordable price!!

■ Special clutch kit

Built-in damper located in the primary driven gear, to reduce the shock of the clutch connection.
Correspond to the high output engine by attaching 5pcs friction disks.
There are two types, the slipper clutch and standard clutch type for your choice.

■ Dedicated aluminum die-casting clutch cover

Aluminum die-casting clutch cover is excellent in maintenance. (patented structure)
Thermostat unit can be mounted to the cover.(Option)

It is most suitable to prevent over-cool.

We have established oil check window, cartridge type oil element and oil outlet for the oil cooler.

We have three surface treatments. Buffing clear paint, brown paint and black paint.

**It is a clutch kit for the motorcycle with our close ratio transmission. Not compatible with XR70R (~DE02-1299999).
For CRF50F/XR50R, in order to use the clutch lever included in the kit, should be exchanged to the handle pipe with outer dia. ϕ 22.2mm.**

Special Clutch Kit include close ratio gear (w/die-cast clutch cover)

inner structure of primary driven gear (Rubber damper built-in)

Clutch cover (3-type)

The example of wearing of a thremostat

Oil filter
