

NEW PRICE Special clutch kit
For Monkey / Gorilla, Monkey (FI) , MAGNA50, 12V DAX50
Came up in new affordable price!!

■ **Special clutch kit**

Built-in damper located in the primary driven gear, to reduce the shock of the clutch connection.
Correspond to the high output engine by attaching 5pcs friction disks.
There are two types, the slipper clutch and standard clutch type for your choice.

■ **Dedicated aluminum die-casting clutch cover**

Aluminum die-casting clutch cover is excellent in maintenance. (patented structure)

Thermostat unit can be mounted to the cover.(Option)

It is most suitable to prevent over-cool.

We have established oil check window, cartridge type oil element and oil outlet for the oil cooler.

We have three surface treatments. Buffing clear paint, brown paint and black paint.

Special Clutch Kit
(w/die-cast clutch cover)

inner structure of primary driven gear
(Rubber damper built-in)

Clutch cover(3-type)

The example of wearing of a thremostat

Oil filter
