

■814cc Piston Kit W800/W650

Bore up piston kit for W800/W650. By performing the boring processing and change the sleeve to the attachment, it is possible to up the displacement to 814cc. Piston is the high compression specification. W800 would be changed from 8.4 : 1 (standard) into 10.5:1. W650 would be changed from 8.6 : 1 (standard) into 10.5:1. It can be used in W800 with stock ECU. (Caution: must be used with the stock exhaust system.)

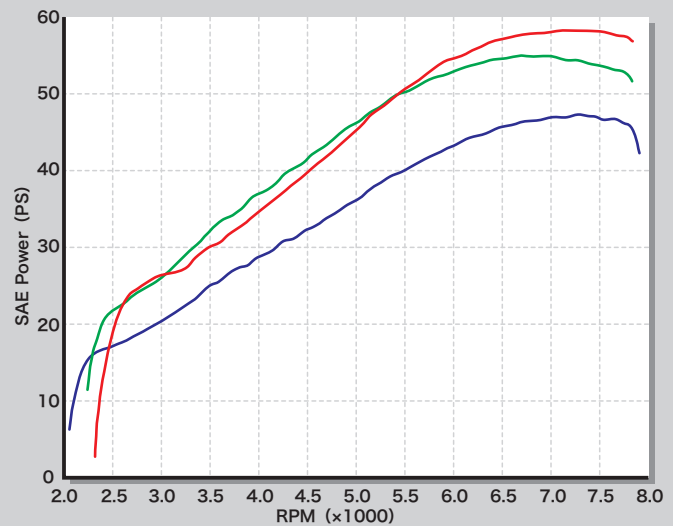

- ※ Besides the gasket of the attachment, the Stock gasket and the o-ring are required separately.
- ※ The fuel must be high-octane gasoline.

Name	814cc Piston Kit
Applicable model	W650, W800
Item number	01-05-0266
Price	¥74,000

W800
 ■ 814cc Piston Kit+Stock camshaft+Original Exhaust system
 ■ 814cc Piston Kit+Stock camshaft+Stock Exhaust system
 ■ Stock Engine+Stock Exhaust system
 ※ To prevent the engine from getting damaged, keep specified rpm range.
 ※ Tested at the condition of our test facility, actual power may vary.
