

■S-Stage eco 161cc series

Address V125/G/S

By making the compression ratio to 10.5:1, S-Stage eco enables the use of regular gasoline. In addition to dedicated piston and all aluminum ceramic plated cylinder with excellent durability, tightness, heat dissipation, comes with a cam shaft to bring out the performance of the cylinder head. Output would be improved substantially through the whole area to high rpm from low rpm.
