

## ■Cone oval exhaust system(Up-type)

### CROSS CUB / Super cub110(JA10) / Super cub110 PRO(JA10)

Silencer is adopted the cone-shaped unique end based on the stainless steel oval type.

Pull out the engine performance through the exchange, and enables output up at all engine speeds.

By adopting a special structure, reduce the volume increase due to aging, can be directed the exhaust sound with crisp sound quality in the silencer inside.

Can be mounted with our half cover set and the under-frame set simultaneously.

You can also attached to Super Cub 110 (JA10-1000001 ~) , but won't be possible to ride in tandem because necessary to remove the pillion step.
