

■Helmet holder(exclusive key and spare key included)

Universal

It is a helmet holder with excellent versatility to be mounted by utilizing the license plate mounting holes.
Mounting position of the helmet holder will be on the left side.
Our original piston shaped key is included.
Stay is made of the steel with black painting.
Do not run without removing the helmet from the helmet holder.

※Precautions for mounting

Do not attach to the license plate which does not have enough strength to be attached the helmet.
Before you make an order, please check the strength of your license plate and our dimensional drawings first.
The following is the dimensional drawings.
