

Blaze LED tail lamp

Monkey・Gorilla・Ape50/100・ZOOMER(AF58) etc.

Custom LED tail lamp kit can be just bolted onto Honda genuine tail lamp used on many vehicles.

Can be power saving by LED. Also, can be installed to the fuel injection bikes. Just connect to the stock bulb socket.

With license plate light.(White LED)

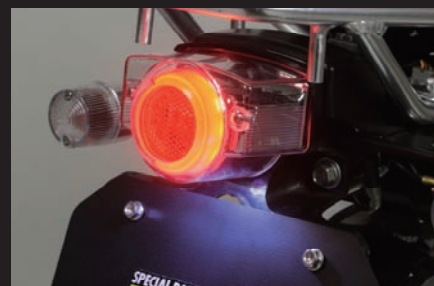

Do not install with vehicle with big vibration such as a customized vehicles, because there is a possibility that the LED bulb will be broken.
