

■ Screen kit (Long type/Short type)

For Z125 PRO

By windshield effect, can be reduced the fatigue of the rider due to air resistance during riding. There are a stylish short type and a long type with an emphasis on the windshield effect. Adopted a high-quality polycarbonate screen. Clear and smoke color for long type. Only smoke color for short type.

Long type is firmly fixed at four points of steel stay and the meter visor part. In addition, the black anodized aluminum retainers are compatible with our headlight side collar. You can enjoy the color coordinate of other 5 color, silver, blue, red, gold, and gunmetal. (optional parts)

※At mounting of this product requires drilling into the cowl of the meter visor part.
