

■Hyper igniton coil

**MONKEY(FI) • SUPER CUB50(FI)(AA01/AA04)
LITTLE CUB(FI)(AA01) • SUPER CUB110(JA07/JA10)
CROSS CUB • GROM • MSX125 • MSX125SF
Z125 PRO • D-TRACKER125 • KLX125**

Sparkplug's discharge voltage will decrease more at the higher rpm, stock ignition coil could not supply required voltage and will not spark properly with poor condition of spark plug or plug wire. This "Hyper igniton coil" will discharge stable voltage at the all rpm range. This unit will work from stock engine to high performance tuned engine. Simply replace with the stock ignition coil.
Cord length: 500 mm

- It will work with Takegawa's injection controller series "FI CON" "FI CON 2" "FI CON PLUS"
- It will work with these custom gauge kit.

Super multi DN meter • medium LCD Speed & tachometer • D-type LCD speed & tachometer • Square LCD meter

Medium DN tachometer • Small DN tachometer

- These tachometer will not work with this kit.

Large LCD α speed & tachometer • medium LCD α tacho & thermometer • Analog electric tachometer.
(Blue LED/ Black&Green/ White &Black)

※This parts will not cover the lack of performance of old or failed spark plug. Please use the spark plug in good condition.

※Exclusive use for the injection model.Can not be used with carburetor model.

※Ape50(FI)(AC16-1600001 ~ / AC18-1000001 ~)cannot be used this kit because of interfere with its frame.
