

■ Power silent oval exhaust system (Slip-on type)

XTZ125

Improved the exhaust efficiency and adopted "Power Silent Silencer" for giving consideration to the noise. By adopting our special designed structure inside of silencer, it has both high exhaust efficiency and quietness. A slip-on type using and remain a stock front pipe, and the mid-pipe and a silencer is made by a stainless steel that has excellent in corrosion resistance.

■ Proximity noise 78dB (A)
