

## ■ Bomber exhaust system

GROM('16 model)

It is a down type exhaust system adopting a stepped exhaust pipe that aims at improving exhaust efficiency and output performance. For the  $\phi 90$  aluminum silencer that keeps avoid deterioration and suppresses the noise level.

Can be improved the output at high speed range.

Aluminum silencer is beautiful almite finish.

Exhaust pipe is made of the stainless steel with excellent corrosion resistance.

Surface is polished and finished beautifully.

■ Proximity noise 84dB (A)

※Also, can be installed to MSX125 SF.

※Cannot be installed to GROM(JC61-1000001 ~ 1299999)/MSX125(MLHJC618\_D500001 ~ )
