

## ■ Billet aluminum oil level gauge

**Z125 PRO**

Billet aluminum oil level gauge achieves both a sense of existence and ease of turning at the fingertip.

It can be dressed up only to exchange with stock one.

The cap part and the gauge part are one piece structure which machined aluminum material elaborately.

Color anodized on the surface.

Almited Color: Black / Blue / Red / Gold

To ensure easiness of turning with the fingertip, knurling is applied around the cap part.

Gauge section has the slit to be a measure of the oil level, and can be kept the good condition like stock one.
