

■Billet Step Plate(3 position type) For Ninja250R

New arrival of 3-position step plate!! You can use it in a comfortable position in various situations such as street riding and sports riding on a winding road. The adjustable position to fit your riding style will allow you to set to the position so you will not get tired in long rides, and get the lean angle to make it a smooth ride. You can adjust the step position by this plate and change rod while using the stock shift arm, shift pedal, brake arm, step holder, and brake switches.

Adjustable Position (from stock position)

Position1 : 23mm back, 7mm higher

Position2 : 29mm back, 18mm higher

Position3 : 33mm back, 27mm higher

※The stock exhaust system can not be mounted.
