Monkey RT (AB22-1007601 ~)	

- We are flattered that you have purchased one of our products. Please strictly follow the instructions in installing and using the products.
- This is a Super head 4 VALVE + R / bore up (57x41.4 105.6cc) kit for the Monkey and Gorilla. The use of a SCUT Cylinder kit soups up the engine to 106 cc without change the crankshaft. This product, with a camshaft equipped with an automatic decompression function, is so designed that the engine can start easily.
- Before install the products, please be sure to check the contents of the kit. Should you have any questions about the products, please kindly contact your dealer.

© If the description, such as photos or Illustration different with this part.

~ Kit Contents ~

☆ Please read carefully before use ☆

- © This product is designed for exclusive use on the closed course.
- © We do not take any responsibility for any accident or damage whatsoever arising from the use of the products not in conformity with the instructions in the manual.
- © This kit is designed for exclusive use in the above-mentioned applicable models and frame numbers only. Please take note that this kit cannot be mounted on other models of motorcycles.
- © Please be informed that, mainly because of improvement in performance, design changes, and cost increase, the product specifications and prices are subject to change without prior notice.
