

Rear shock absorber Instruction manual

Product number 06-04-0062

Adaptation model and chassis numbers	GROM : JC61-1000001 ~ 1299999
	: JC61-1300001 ~
	: JC75-1000001 ~
	MSX125
	MSX125SF

Thank you very much for purchasing our products.

Thank you so you will comply with the following matters at the time of use. Before installation, please check your always kit contents.

If there is a point of notice event, Please contact us the dealer of purchase.

Ⓞ If the description, such as photos or Illustration different with this part.

☆ Please read carefully before use ☆

Ⓞ The use ignoring the instructions that are written in the manual, if the accident or damage has occurred, we can not assume any responsibility for compensation.

Ⓞ This product installation and use, when a problem occurs to after market goods, guarantee other than this product, also can not assume any in any such matters.

Ⓞ If it was the case or mounting that has been processed like a product, it will not be covered under warranty.

Ⓞ It is not possible to inquire of the combination of other manufacturers.

Ⓞ This product is the above-mentioned vehicle exclusive goods. Is not possible attached to the other vehicle. Please note.

~ feature ~

○ It is a rear shock absorber reviewing damping and spring rate of original rear shock.

○ It is possible to adjust the spring in hardness with an emphasis on 2-seater from 1 seater. (Stepless adjustment)

⚠ Caution When the handling of ignoring this display, property damage and human shows the assumption of what injury.

■ When performing the work, etc., be sure during the cold (when the engine and the muffler is cold).

- ※ Removal procedure is for the vehicle of JC61-1000001 ~ 1299999. Regarding the vehicle of after JC61-1300001 ~ /JC75-1000001 ~ , please follow the genuine service manual.

- Tightening upper and lower mounting nut is attached to rear shock.

⚠ Note: Be sure to protect specified torque.

Upper Mount nut
Torque : 44N · m (4.4kgf · m)
Lower mount nut
Torque : 44N · m (4.4kgf · m)

- After installation is complete, attaches in the reverse procedure of removing other parts.

※ Following fastening torques are for the vehicle of JC61-1000001 ~ 1299999.

Regarding the vehicle of after JC61-1300001 ~ /JC75-1000001 ~ , please follow the genuine service manual.

⚠ Note: Be sure to protect specified torque.

Pan screw 6X12 (drive chain cover)
Torque : 9N · m (0.9kgf · m)
Pan screw 5X14 (shroud cover)
Flange bolt 6mm (each mounting bolt)
Torque : 10N · m (1.0kgf · m)
Shroud screw
Torque : 4.2N · m (0.4kgf · m)
